Emma's Kitchen

Cooking With Love

Dear Parents and Pupils,

We are really excited to be providing the school dinners for your children from September. As a mum of 3 boys of school age, I know how important it is to feel that your child is receiving a tasty and healthy meal at school. Emma's Kitchen wants to provide nutritionally balanced, healthy food that is also tasty, and for lunchtimes to be something that the children look forward to.

I am passionate about educating children about food – where their food comes from, how their lunches are created and encouraging the children to try new and different foods, and to not be afraid of tasting foods and flavours they might not have tried before. To me, catering for school children is more than just serving food up at midday.

Emma's Kitchen is a local business, and we strongly believe in finding out the needs of schools individually and will tailor our menus to suit.

If your child has any dietary requirements, please feel free to email me – emma@emmaskitchenco.com and we can discuss your child's requirements.

Our Autumn menu is currently being written but will include all the favourite's including toad in the hole, chicken tikka masala and of course our famous burger Friday!!! Please look at our website www.emmaskitchenco.com to find the latest menus.

We look forward to meeting you all in September!

Emma and the Team
