Leigh Primary School

Second Hand Uniform

'Sharing, caring and learning together'

Dear Parents and Carers,

As the year opens, I wanted to write to you about how the school will be processing second hand uniform next term. Currently, due to capacity we have had the kind assistance of David Bennie who has been selling second hand uniform at various events. Whilst we have been very grateful for this support, we are now ready to manage second hand uniform ourselves and ensure that it is more accessible to all, direct from the school.

We have linked with 'Uniformd' to enable greater access to second hand uniform, improve sustainability and be greener by encouraging more families to reuse clothing. The school will wash and pack any donated uniform and sell on a user-friendly internet site. The school will load up uniform that is available and you can simply click and buy (low cost) and we will send you a message when you can collect from the school office or we can pop it in your child's bag. We will also sell school ties through this app which are of course new for your ease so no cash necessary. The money will go directly to the PTA and back to your children.

We are set up and ready to load uniform. Therefore, all that is left for you to do is donate any old uniform that your children have grown out of to the school office and we will post it online. Once we have posted we will send you the link and handy QR code to start reusing and making Leigh a Greener school.

Kind Regards,

Jenna Halfhide
Headteacher - LPS

**As always, we appreciate you labelling all of your uniform clearly whether it is second hand new or otherwise. This helps us to find the owners and reduce the risk of it ending up in lost property. We will no longer be storing lost property in a box outside the school and will use monitors to return anything left to classrooms. However, it is the responsibility of parents to name uniform to allow us to find owners.*
